

“Thoroughly Impressive  
Quality & Performance”

## Stealth® Attachment Kit

For nearly 20 years, Stealth Central Vacuum Kits have satisfied thousands of homeowners with excellent long-term cleaning. The latest Stealth Kit takes quality and performance to a whole new level while maintaining its most popular features, including:

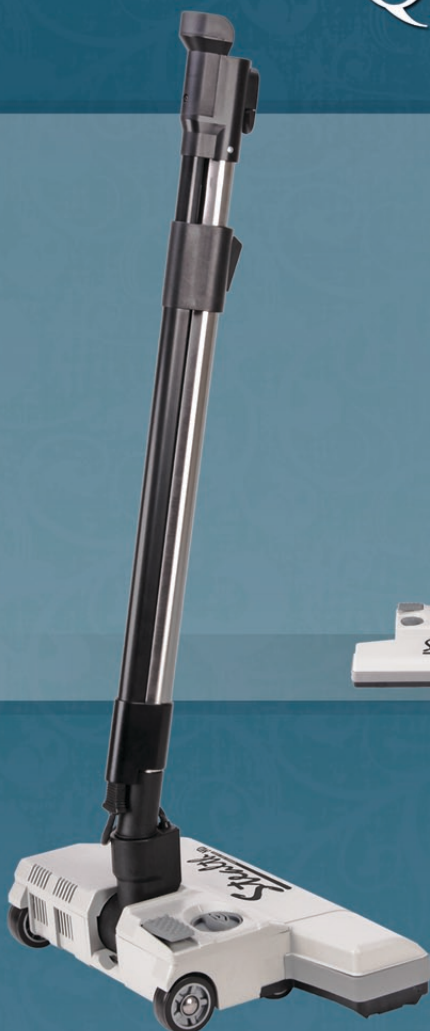

- Italian Engineered Power Brush
- Extremely Quiet Operation
- Lifetime Belt Warranty
- One Pass Debris Pick-up
- Accessories and Storage Tools

The Stealth kit fits all central vacuums  
and brings life back to all floor surfaces.

Exclusively from:

**MD**

# Stealth Kit Highlights

## Stealth + Carpet = Perfect Match

A successful relationship between the Stealth and your carpet is measured by how well the carpet is cared for and how little maintenance Stealth requires. Expectations for both are very high since the Italian made Stealth has the best profile of any vacuum on the market today with its powerful motor, lifetime belt warranty, computer aided safety, no tangle brush, 12-step height adjustment, and strong but gentle body.

## Durable Resilient Hose

The most abused part of any central vacuum is the hose. It gets pulled, stretched, dropped, stepped on, squashed, and hung in a closet. Facing this roughness, why settle for a generic hose? The Stealth Kit includes the MD Electric Hose, the best hose in the industry for its durability and performance. It has a gas-pump handle, three way switch, 27% more airflow than older hoses, is crushproof, light, and swivels 360°.

## Axis Clean-Agility

The Axis floor brush is an outstanding tool for hard floors including all wood, tile, cement, and more. The amazing swivel capabilities makes cleaning fun. There are so many angles you can instantly use to quickly and comfortably vacuum large areas and narrow retreats. We guarantee you'll find cleaning time reduced while covering more area.

## Wall Wand Clamps

Keep cabinet and closet floors freed up as you store the Stealth, floor brush, and wands on the wall using Wall Wand Clamps. These sturdy clamps hold the Stealth and wands so tight they don't slip as they hang ready for use on the wall. The kit also comes with a hose hanger to keep the vacuum hose tidy.

## Ergonomic Telescopic Wands

These high quality metal wands adjust for the user's optimum cleaning height, and the soft disconnect feature is a real pleasure to use. Engaging and disengaging are no longer a hassle and they easily slide in and out with a button lock and release feature. The wand is extremely well built using a metal body, thick plastic, and real screws.
