

***Cleaner Floors
in Half the Time***

CentraMopTM

Vacuum Power and Microfiber Mopping

Two Tasks at Once Saves Time! The CentraMop simultaneously vacuums and damp-mops sticky grime off all hard floors with minimal effort. The unique front and rear vacuum channels pick-up debris whether pushing or pulling. Same effort - cleaner floor - cleaner home.

MicroFiber Cleaning Pad. The microfiber pad saves money over single-use versions by rinsing and reusing it as often as needed. The squeezed-out, damp pad avoids pushing dirty water into tile grout and is specifically designed to work with all wood floor cleaners.

Universal Fit. The CentraMop fits all standard 1-1/4" diameter wands. Dimensions: 12" long by 4-3/4" wide by 3" tall.
