POOLCLEANER

# WEDA B600

## Technical description B600

The Weda B600 automatic pool cleaner enables swimming pools to be cleaned with speed and efficiency. It is supplied with a safety transformer with an operating voltage of 42 V for maximum safety. The powerful suction of the pump makes it possible to operate the machine on vertical walls. The B600 is equipped with radio remote control hand box or remote control with cable and can be operated both in manual or automatic mode.

There is a timer which permits the start up time and the operating time of the machine to be pre set. In most pools the machine can be operated without supervision. The powerful pump sucks up all dirt into the filter bags which the rotating brushes have removed from the bottom of the pool. Weda B600 requires only a minimum of maintenance and is delivered complete with transport trolley with safety transformer, remote control and is ready to be operated after it has been connected to the power supply. Weda B600 meets the demands of the EC declaration of conformity for machines and electrical equipment. This is warranted by the CE mark.

## Standard equipment B600

Transport trolley including transformer	
Two double filter bags	125 micron
Double protection bags	
Two rotating brushes	
Power supply cable	10 m
Remote control cable	30 m
Floating cable	40 m

Complete B600 cleaning unit with trolley, transformer, floating cable and radio remote control unit. The trolley has a built in ramp for easy unloading and loading.

## Technical data B600

Weight	approx. 52 kg
Weight in water	approx. 7 kg
Dimensions (l x w x h)	86 x 60 x 30 cm
Suction width	60 cm
Suction capacity	1200 l/min
Variable speed	0,2 and 0,4 m/s
Speed in automatic mode	0,2 m/s
Mains voltage 3-phase, 50/60 HZ	230/400/415 V
Operating voltage	42 V
Max. power output	2,5 kW

B600 can be operated on vertical walls due to its powerful suction capacity.

## Extra equipment B600

Radio remote control	
Timer	
Inner filter bags	70 alt 200 micron
Discharge for hose	2"
Floating discharge hose	2"
Spring loaded brush	
Free stream impeller	
Flexible bumper bar for continues operation	
Floating cable	41-60 m

Transport trolley is equipped with transformer, timer, radio control unit and sturdy lockable wheels.

Hand box for easy operation of the pool cleaner.
